"My sister had an accident about 7 years ago. She was in a coma for 35 days. After recuperating, she went home and she was never able to walk without assistance.

After drinking Maqui Plus+ for two months (4 bottles), she gradually became stronger and stronger. To everyone's joy, she was able to walk without anyone assisting her anymore.

I want to thank Unilever Network for blessing us with this wonderful Maqui Plus+."

"After drinking Maqui Plus+, my body energy level went up and i feel more energetic everyday.

Most important is that I have a customer who is a diabetes and his health was so much better after consuming the health supplement, Maqui Plus+.

He said his diabetes level drop from 15 to 8.5 He is so much more healthier and everyday he seems to be better and better. He even mentioned that his bedtime activity with his lovely wife improved.

Thank you Unilever Network for bringing into Malaysia such a wonderful health supplement."

Ah Lian works hard everyday selling Fuzhou Noodles in Kuching.

After giving birth to her son 10 years ago, they decided to have a second child 8 years ago. For 8 long years they tried without success.

A few months ago, Licia introduced Maqui+ to Ah Lian as a mixed berries and fruits concentrated drink to support and maintain a healthy body.

After drinking only 5 bottles, we believe her health level went up and to our surprises, she announced to Licia that she is pregnant again after 8 years of trying. Today, Ah Lian dream became a reality.

Ah Lian thank Unilever Network for bringing Maqui Plus+ to Malaysia." Ah Lian, Kuching

“I love eating all kinds of nice food. Over years, this indulgence has taken its toll on my liver health. My liver test result showed ALT reading increased from 170 to 238 within Feb to September 2013 while normal reading should be 14-54. I was always feeling tired and caught flu frequently. This really worried me as the high ALT reading could mean I had liver diseases or damage. In November, a friend, Derrick recommended me to try Maqui plus. I did another liver test after consuming for 3 months and the ALT reading has dropped to 39! (24-2-2014). I was overjoyed. Now I feel very energetic, seldom catch cold or flu. Thanks to Unilever Network for bringing in this super anti-oxidant multi berry fruit juice into Malaysia.”

I am a business woman with lots of responsibilities.

A few years back, I started to have daily migraine pains due to the years of lacking proper rest after a long day at work.

One day, my neighbor, Mrs. Shirley recommended that I try Maqui Plus.

After drinking only my first bottle, I can feel myself being more energetic and my body seems to repair itself, and the end results was that I don't feel any migraines pains anymore.

Thank you Unilever Network for such a wonderful product." Minnie, P.J.
